SUMMARY

Informatics Engineering graduate from Telkom University Purwokerto (GPA 3.86/4.00) with a strong foundation in full-stack web development and cybersecurity. Certified Junior Web Developer by BNSP, with hands-on experience in network security, digital forensics, and ethical hacking. Delivered production-ready platforms serving 100+ users, led a student organization of 1,000+ members and organized 150+ events over 4 years, and facilitated IT workshops for 134 students. Passionate about building secure, scalable web applications and continuously deepening expertise in cybersecurity (OWASP) and modern web technologies.

EXPERIENCE

- IT Developer Intern (Kemnaker Program)** — PT LPP Agro Nusantara, Yogyakarta *Nov 2025 – May 2026*
 - Designed and developed 2 production platforms (Super App and AgroNow) using PHP and MySQL within 7 months, covering 5+ core modules including participant management, invoice generation, and automated MCQ & essay grading.
 - Improved application performance by integrating AJAX for asynchronous data loading and optimizing pagination, reducing perceived server response time by ~40% on data-heavy pages.
 - Enhanced data security by implementing HTML-stripping sanitization functions to prevent injection vulnerabilities and ensure consistent metadata storage.
 - Improved the user interface by developing interactive modal components for real-time data updates and standardizing UI elements across the platform.
 - Maintained code quality and version control using GitHub, and performed end-to-end QA testing across both platforms, identifying and resolving 15+ critical bugs prior to production deployment.
- Web Developer Intern** — PT Cazz Teknologi Inovasi, Purwokerto *Jul – Sep 2024*
 - Designed and developed 4+ UI/UX pages for the ID FARM livestock management system (landing page, user profile, and profile editing interfaces) within a 3-month internship, built with Laravel, HTML, and responsive CSS.
- Vice Chairman & Head of Public Relations and Media** — Sentral Kerohanian Islam (SKI UKM), Telkom University Purwokerto *Jan 2021 – Dec 2024*
 - Led the Public Relations and Media division for 4 years, managing communications and broadcasting for a student community of 1,000+ members.
 - Organized and successfully executed 150+ spiritual development programs, character-building workshops, and social outreach events over 4 years, all completed on schedule and within organizational resources.
- Workshop Speaker & Mentor** — Mentoring Agama, Telkom University Purwokerto *Jan 2021 – Dec 2024*
 - Mentored 20+ students per semester in personal development through regular group sessions and one-on-one guidance over 4 years.
 - Delivered structured workshops and lectures on religious education and personal development, contributing to a positive campus culture.
- Facilitator** — Community Service Workshop, MTs Muhammadiyah 1 Purbalingga *Dec 2022*
 - Facilitated a hands-on Information Technology workshop for 134 junior high school students, applying the Contextual Teaching and Learning (CTL) methodology to make technical concepts accessible and engaging.
 - Educated students on responsible and ethical technology use, and delivered motivational guidance on higher education and career pathways in the technology sector.

KEY ACHIEVEMENTS

- Delivered a production-ready Learning Management System (AgroNow & SuperApp) at PT LPP Agro Nusantara, encompassing CSV-based data imports, automated grading, and a shipment tracking module.
- Completed a full OWASP-based penetration testing project on a live Islamic foundation website as a thesis, uncovering critical vulnerabilities and delivering a comprehensive security hardening report.
- Led SKI UKM for four years as Vice Chairman, overseeing public relations and media broadcasting for a student organization of hundreds of members.
- Achieved Junior Web Developer certification from BNSP & LSP Informatika (valid through January 2028) while completing a full academic degree.

PROJECTS

- Penetration Testing — Website Security Analysis Using OWASP WSTG (Thesis Project)**
 - Performed a comprehensive web application vulnerability assessment for an active Islamic foundation website, following the OWASP Web Security Testing Guide (WSTG) methodology.
 - Identified and documented critical security issues including authentication weaknesses, input validation flaws, and server misconfigurations.
 - Delivered a structured security report with technical mitigation strategies and actionable hardening recommendations.
- Indonesian Poverty Data Visualization Platform**

- Developed an interactive public data platform using native PHP, Bootstrap, and Chart.js to process and visualize Indonesian poverty statistics in an accessible format.
- Implemented a role-based authentication system with separate Admin and User access levels, along with a community discussion forum feature.

Learning Management System — PT LPP Agro Nusantara (AgroNow & SuperApp Integration)

- Built a CSV-based Learning Catalog import feature with automatic data validation and descriptive error handling.
- Developed full CRUD functionality for employee data management, including add, edit, status update, password reset, search, and data export features.
- Contributed to AgroNow Classroom development, covering training sessions, participant enrollment, PDF learning materials, assessments, certificates, and a question bank.
- Built Insight Classroom reporting tools for participant scores and biodata, with dynamic filters and Excel export functionality.

CERTIFICATIONS

Junior Web Developer

National Professional Certification Agency (BNSP) & LSP Informatika Certificate No: 62019 2513 4 0032632 2025 | Issued: January 2025 | Valid until: January 2028

Junior Cyber Security — Codepolitan Online Classes

- Cyber Security and Penetration Testing Fundamental — Issued March 2025, valid until March 2028
- OSINT for Cybersecurity: Uncovering Hidden Threats — Issued November 2025, valid until November 2028
- Understanding System Security Vulnerabilities — Issued November 2025, valid until November 2028
- Ethical Hacking for Beginners (Live Class) — Issued November 2025, valid until November 2028

Google IT Support Professional Certificate — Coursera

Issued: January 2023 | Modules: Technical Support Fundamentals, Computer Networking, Operating Systems, IT Infrastructure Services, IT Security

Cyber Security Penetration Testing — ID-Networkers (IDN.ID)

Topics covered: Cybersecurity Principles & Threat Landscape, Networking Fundamentals, Linux Basics, Web Reconnaissance, Web Exploitation with Burp Suite, Android Penetration Testing, Static & Dynamic Analysis, Active Directory Enumeration, Post-Exploitation Techniques & Lateral Movement.

EDUCATION

Telkom University Purwokerto | 2021 – 2025

Bachelor of Engineering in Informatics Engineering | GPA: 3.86 / 4.00

Madrasah Aliyah Fattah Hasyim — Bahrul 'Ulum Tambakberas Jombang | 2018 – 2021

Madrasah Aliyah Diploma in Islamic Studies

Pondok Pesantren Bumi Damai Al-Muhibbin — Bahrul 'Ulum Tambakberas Jombang | Jul 2015 – Dec 2022

Islamic Boarding School — Religious Education and Character Development

SKILLS

Cybersecurity: Network Security, Digital Forensics, Ethical Hacking, Penetration Testing, OWASP WSTG, Vulnerability Assessment, Web Application Security, OSINT, Active Directory Enumeration, Post-Exploitation, Android Pentesting, Kali Linux, Wireshark, OWASP ZAP, Nmap, Nikto, Burp Suite, Metasploit

Web Development: PHP, Laravel, Python, HTML5, CSS3, JavaScript (AJAX, ES6+), MySQL, Bootstrap, Chart.js, REST API, MVC Architecture, Role-Based Access Control (RBAC), CSV Data Processing, PDF Generation, Excel Export

Tools & Platforms: Git, GitHub, Kali Linux, Wireshark, OWASP ZAP, Nmap, Nikto, Burp Suite, VS Code, Postman, Linux CLI, Windows, Android Studio (static/dynamic analysis)

Soft Skills: Leadership, Communication, Mentorship, Teaching, Team Collaboration, Public Speaking, Problem Solving, Project Management, Time Management, Critical Thinking

Languages: Indonesian (Native), English, Arabic (Basic Reading)
